Three Wheeler Tyres

An ISO 9001:2008 Certified Company

We, the DEE India Overseas, are an ISO 9001:2008 certified company and all the products we manufacture conform to stringent quality standards. All of our products are tested as per the standard specifications of quality and are certified for the same.

The cost of tires is the second highest expense next only to the cost of fuel for the user of a vehicle. It is, therefore, only logical that no efforts should be spared to minimize the cost of tyres.

Having rich experience of International market, we get manufactured Three Wheeler Tyres under strict quality control and supply the same under brand "DEE". Our tyres are designed by experts and manufactured in advanced technology plant using purest grade of high quality rubber. Our tyres are highly acclaimed for its heavy duty capabilities and can withstand extreme weather conditions.

Salient Features :

- Superior Steering control
- Smooth rolling thread design
- Excellent anti - skid properties

We are concerned not only about the performance but also about the safety of tyres and vehicles.

We believe our satisfied customers are our assets. And our biggest strength is our ability to satisfy our customers.

Today, our group, built by the legendary founder has an enviable presence in the automotive industry in India, and offering two & three wheelers tyres in addition to other automotive components.

We, at DEE India, have a strong commitment for quality tyres. Our endeavor is to be amongst the most trusted companies across the Globe.

We promise to give you a far better value for your money and live up to your quality standards.

Excellence comes not from mere words or procedures. It comes from an urge to strive and deliver the best.

Tech Space :

Brand & Pattern	Size	Ply Rating		NSD (non skid depth) mm	Sectional Width, Nominal -Max (mm)	Outer Dia Min - Max (mm)	Speed Category	Load Capacity Index	Inflation Pressure (kPa)	Recomm RIM Size	Tube / Tubeless	Hump
Dee India Aghera Plus	4.00-8	8 PR	3.400	9 mm	95 mm	415 mm	70 (E)	400 kgs	4255 (kpa)	8	Tube Type	80

Note :

- The weight of the tyres would be (+or-) 100 gms
- The tyres would be of 4 ply
- The outer dia would be (+or-) 5mm
